INTERIOR DESIGN REVIEW

teNeues

Designer: Stéphanie Coutas. **Company:** Stéphanie Coutas Interior Design Studio, Paris, France. An internationally acclaimed interior architecture and design studio crafting bespoke environments where contemporary luxury, exceptional craftsmanship and emotional resonance converge. Recently the studio unveiled its first yacht project, conceived as a seamless extension of a private residence. Among the latest completed works are a private villa located in one of Paris' most prestigious districts, as well as the recently opened Hôtel Madame Drouot. Current projects include two private villas on the Cote d'Azur, a Hôtel particulier in the heart of Paris, and the restoration of a Château on a private estate in France that marks a new chapter for the studio, exploring history, narrative and proportion. **Design philosophy:** rooted in the belief that each space should tell a unique and meaningful story. We approach every project as a dialogue between heritage and modernity.
